

## Town Noise Reduction Task Force Meeting Minutes

February 14, 2020 at 6 p.m. in the Town Hall

The Task Force discussed the best venue for following up with the Town Council on the proposal we had submitted in June 2019 to ban gas-powered leaf blowers. We spent most of the meeting discussing the best means of analyzing the costs of transitioning from gas-powered leaf blowers to battery-powered leaf blowers. We also discussed the list of "Quiet Landscaping Companies" that Task Force members were compiling and a flyer to be inserted in the April Town Forecast.
